Studying and living in Bavaria

Study in one of the most beautiful states in Germany

Are you thinking about studying in Bavaria? Attending a university in the heart of Europe is definitely a great choice! Here you will discover a very special style of living – a unique mixture of vibrant cities and breath-taking nature. In your free time, you won't just be able to go skiing in the nearby mountains or go swimming in the many lakes in the summer – Bavaria also offers a rich cultural life: picturesque palaces, famous museums, music festivals, opera and theatre are only a few of the many attractions. It is also possible to visit European neighbouring countries within just a few hours for a weekend trip. Bavaria is also one of the safest states in Germany: there is a high level of security in the cities as well as in the entire region, and outstanding medical care is available everywhere. Students from all over the world enjoy the excellent standard of living and feel at home here.

But not only the quality of life in Bavaria is amazing. Bavarian universities are well-known for their wide range of courses and their high academic standards. Students and academics from all over the world contribute to this excellent reputation. The costs of studying in Bavaria are relatively low: you can study most degrees without paying tuition fees, and the living expenses in Germany are affordable. By the way, did you know that Bavaria is economically one of the strongest states in Germany, and is known around the world as an important high-tech centre? Also, numerous attractive career possibilities at well-known companies are waiting for you. Welcome to Bavaria!

Feel like studying in Bavaria?

Listen to the experiences of students from all over the world:

Types of universities

Bavaria's wide range of universities

In Bavaria alone, there are 9 state universities, 17 universities for applied sciences and technical universities of applied sciences and 6 universities of arts. Moreover, you can also find a range of private universities here.

The universities focus especially on academic training and research. They offer a wide choice of courses, which prepare you for careers in various areas: natural sciences, economic sciences, engineering, computer sciences, new technologies, humanities, social studies, life sciences, medicine and many more.

The Bavarian universities are equipped with modern laboratories and libraries – so you will find excellent conditions for studying and research. At a university, you will receive a first-rate academic qualification, learn a systematic approach and a research-oriented way of thinking. You will be able to grasp and solve new problems quickly and to confront new challenges successfully. After completing your university degree, you can either pursue an academic career, or work in the private sector.

Interested in obtaining a university degree?

Take a closer look at the Bavarian universities here:

<https://www.study-in-bavaria.de/uni/en>

The universities of applied sciences and technical universities of applied sciences offer practically-orientated courses of study, applied research and state of the art equipment. Besides courses such as technology, engineering, computer sciences or applied natural sciences, you can also choose among a wide range of areas such as economics, social studies, design and media.

Graduates from universities of applied sciences face bright prospects on the job market, for several reasons: students of all bachelor courses spend one semester doing an internship, gathering practical experience and getting to know companies. Teaching takes place in fairly small course groups, and the lecturers all have a lot of professional working experience. Finally, you can find many postgraduate study courses here.

Considering a practically-orientated course of studies?

Find out more about the Bavarian universities of applied sciences and technical universities of applied sciences here:

<https://www.study-in-bavaria.de/hs/en>

At the universities of arts you will receive an excellent artistic training in art, music, theatre, architecture, graphic design, design, film and television. In Bavaria, there are two state universities of arts, three universities of music and one university of television and film. Apart from that, there are also two church-funded universities of art.

However the places at the universities of arts are much sought-after. You will usually have to take part in an entrance examination and demonstrate your artistic talent.

You want to study at a university of arts?

Take a closer look at the Bavarian universities of arts here:

Advice and Support

Tips for successful studying

Looking for a suitable university in Bavaria? Consult the various advice and guidance channels available. If you get started early, you can prepare for your studies in the best possible way.

www.study-in-bavaria.de wants to support you with this important decision and help you to find the right university for your specific interests and needs.

You aren't sure yet what you want to study? Why don't you explore the wide selection of study courses in Bavaria, the list of programs taught in English, or search directly for a specific course in a database:

<https://www.study-in-bavaria.de/courseoffer/>

The International Offices can advise you in all study matters

If you are interested in a particular university or course of study in Bavaria, then you should browse that university's website for the application procedure and for admission requirements as soon as possible. You should also keep an eye out for academic support and scholarship possibilities. If you require additional specific information, you can contact the International Office of the respective university. The staff will be happy to assist you.

You've already been admitted to a university? Then find out all about special orientation, buddy or tutorial programs for international students at your future university. If you have further specific requests, the International Office can also provide you with advice for student activities. The Bavarian universities offer lots of activities to help you settle in and find friends: welcoming receptions, field trips, conversation and study groups, choirs, orchestras, theatre groups, sports activities and many more.

You can find the contact details of the Bavarian universities' International Offices at the end of this brochure, as well as on the internet:

<https://www.study-in-bavaria.de/contacts/>

The Bavarian "Studentenwerke" (Student Services Associations) will help you with everyday life

There are six "Studentenwerke" (Student Services Associations) in Bavaria, which are responsible for different Bavarian regions or towns and advise students of the respective state universities. The staff will be glad to assist you, if you need help regarding apartment hunting, financial support or childcare. Furthermore, the "Studentenwerke" also run canteens, where you can eat meals at a very affordable price. Apart from that, they have many special offers for international students: excursions and intercultural workshops will make your first

weeks at the new university a lot easier. Why not take a look at their website (website in German only):

The Bavarian Academic Centres

Services offered by regional specialists

The Bavarian Academic Centres support the international exchange of all Bavarian universities with scientists and students of other world regions: China, Eastern Europe, India, Latin America and France.

The Academic Centres support students in many ways including promoting semesters abroad, study excursions and internships in the target country.

Are you interested in a specific region? Then take a look at the respective Academic Centre's website to find out more about the services it offers to students.

Note: This brochure is published as part of the public relations work of the Bavarian State Government. It may not be used for canvassing purposes by political parties, canvassers or electoral assistants within five months of an election. This applies to State, Parliamentary, local and European elections. During this period, in particular, its distribution at election rallies and party information stands as well as its inclusion in, printing on, and attachment to, party political information or promotional material constitutes improper use. Nor may it be passed on to other persons for canvassing purposes. Even if there is no election forthcoming, this brochure must not be used in such a manner that it could be construed as support by the State Government for specific political groups. The parties are permitted to use the brochure for purposes of informing their own members.
